Group TAM Plan – Tier II Participation Authorization Form

As part of The Moving Ahead for Progress In the 21st Century Act (MAP-21), both Tier I and Tier II operators are required to produce a TAM (Transit Asset Management) Plan by October 1, 2018. To minimize the administrative burden on Tier II operators, the FTA is allowing for State Departments of Transportation or regional planning organizations to produce a Group TAM Plan. IDOT is a Group TAM Plan sponsor and will produce a Group TAM Plan for all Illinois Tier II operators who opt in. Tier II operators who choose to opt out of IDOT’s Group TAM Plan must produce their own Agency TAM Plan or participate in another Group TAM Plan.

The Group TAM Plan will include the four below elements, as required by MAP-21.

- Inventory of Capital Assets
- Condition Assessment
- Decision Support Tools
- Investment Prioritization

If you would like to read more about the Group TAM Plans, please review the FTA’s TAM Plans website or the FTA Group TAM Plan Sponsor Workbook.
